PROJECTS TIMELINE

2006

Florence Heritage
project: platform offering
new itineraries in the city

2007

Belvedere Firenze
project: panoramic points
on the hillsides

Florence on Earth
project: the GIS system
for the archaeological
assets

2008

Buffer Zone
project: identification of
the buffer zone of the
World Heritage site

Urban Codec
project: decoding the
urban area

2009

**Urban Critical Survey,
the Squares, phase 1**
project: public space

Visitor management
project: tourism

Firenze perbene
project: care for and
decorum of the city

Visions of Florence
project: video for present-
ing the World Heritage
site

2010

**Urban Critical Survey,
the Squares, phase 2**
project: public space

Medieval Florence
project: medieval urban
landscape

2011

East-West Axis
project: critical survey for
the requalification of the
urban landscape

2013

**HECO - Heritage &
COlours**
project: open data of
architecture

2014

Archeomedsites
European project: transfer
of good practices in World
Heritage sites in Lebanon
and Tunisia

**Twinning of
Jordan-Italy**
twinning project: transfer
of good practices in
Jordan

2015

**Inauguration of
Piazzetta Tre Re**
project: requalification of
urban spaces

2016

**Study of the Capacity
of the Historic Centre
of Florence**
project: tourism and
sustainability

**Seminario Internacio-
nal de Ciudades
Patrimonio Mundial de
la Humanidad**
European project: in Leon,
Nicaragua, on the theme
of management of the
World Heritage cities

**Hidden Conservation
Revealed**
project: video on the topic
of restoration

2017

**Twinning of
Azerbaijan-Italy**
twinning project: transfer
of good practices in
Azerbaijan

**Heritage Impact
Assessment of the
Historic Centre of
Florence**
progetto: Heritage Impact
Assessment

**Advisory Mission
ICOMOS/UNESCO**
on the management and the
conservation of the Historic
Center of Florence, World
Heritage site

2018

in the Atlantic Area:
Sustainability of the
Urban World Heritage
Sites**

European project:
sustainability in the World
Heritage sites of Oporto,
Bordeaux, Edinburgh,
Florence and Santiago de
Compostela

Florence's World Heritage
thematic workshop on
Heritage Impact Assessment
as methodology for managing
continuity and change, in
collaboration with the
ICCROM expert Mrs. Jane
Thompson

**Florence and the cultural
inheritance of the religious
heritage**
project about the
management and the
sustainable conservation of
monumental complexes of
historical and religious
interest

2019

**Regulation of historical and
traditional businesses**
for the protection and the
improvement of Florentine
historical and traditional
economic activities

**Florence Heritage Data
System**
ongoing project: Geographic
Information System for
analyzing, monitoring and
managing transformations in
the Historic Center of
Florence

PROJECTS SELECTED

- 1) PANORAMIC POINTS ON THE HILLSIDES AND BUFFER ZONE
- 2) HeCo - HERITAGE COLOURS
- 3) STUDY ON THE LOAD CAPACITY OF THE HISTORIC CENTRE
- 4) HISTORIC AND TRADITIONAL COMMERCIAL ACTIVITIES
- 5) DATABASE ON THE TRANSFORMATION AREAS AND BUILDINGS
- 6) OUV DATA SYSTEM

1) PANORAMIC POINTS ON THE HILLSIDES AND BUFFER ZONE

The creation of a “Buffer Zone” is intended to implement effective protection measures for the Historic Urban Landscape. Application for a variation to the Technical Regulations for the Implementation of the Structural Plan and the Town Planning Regulations

MISSION

SAFEGUARDING

TIMING

2011 - 2019

RESPONSIBILITIES

Municipality of Florence - UNESCO Office and Town-planning Office

HeRe_Lab (joint laboratory of the Municipality of Florence and the University of Florence)

**SUSTAINABLE
DEVELOPMENT

1) PANORAMIC POINTS ON THE HILLSIDES AND BUFFER ZONE

GOALS

Recovery and restoration
of abandoned buildings
and complexes

Enhancement of the
public areas and services
connected to the
recovery of the
abandoned buildings and
complexes

Camertata

Torre del Gallo

Giardino
Bardini

Forte Belvedere

Giardino di Boboli

Chiesa di S. Spirito

Chiesa di S.M.Novella

Orti del Parnaso

Bargello

Duomo

Cappelle Medicee

Torre di Belosguardo

Monte Oliveto

Valle del Mugnone

Palazzo Vecchio

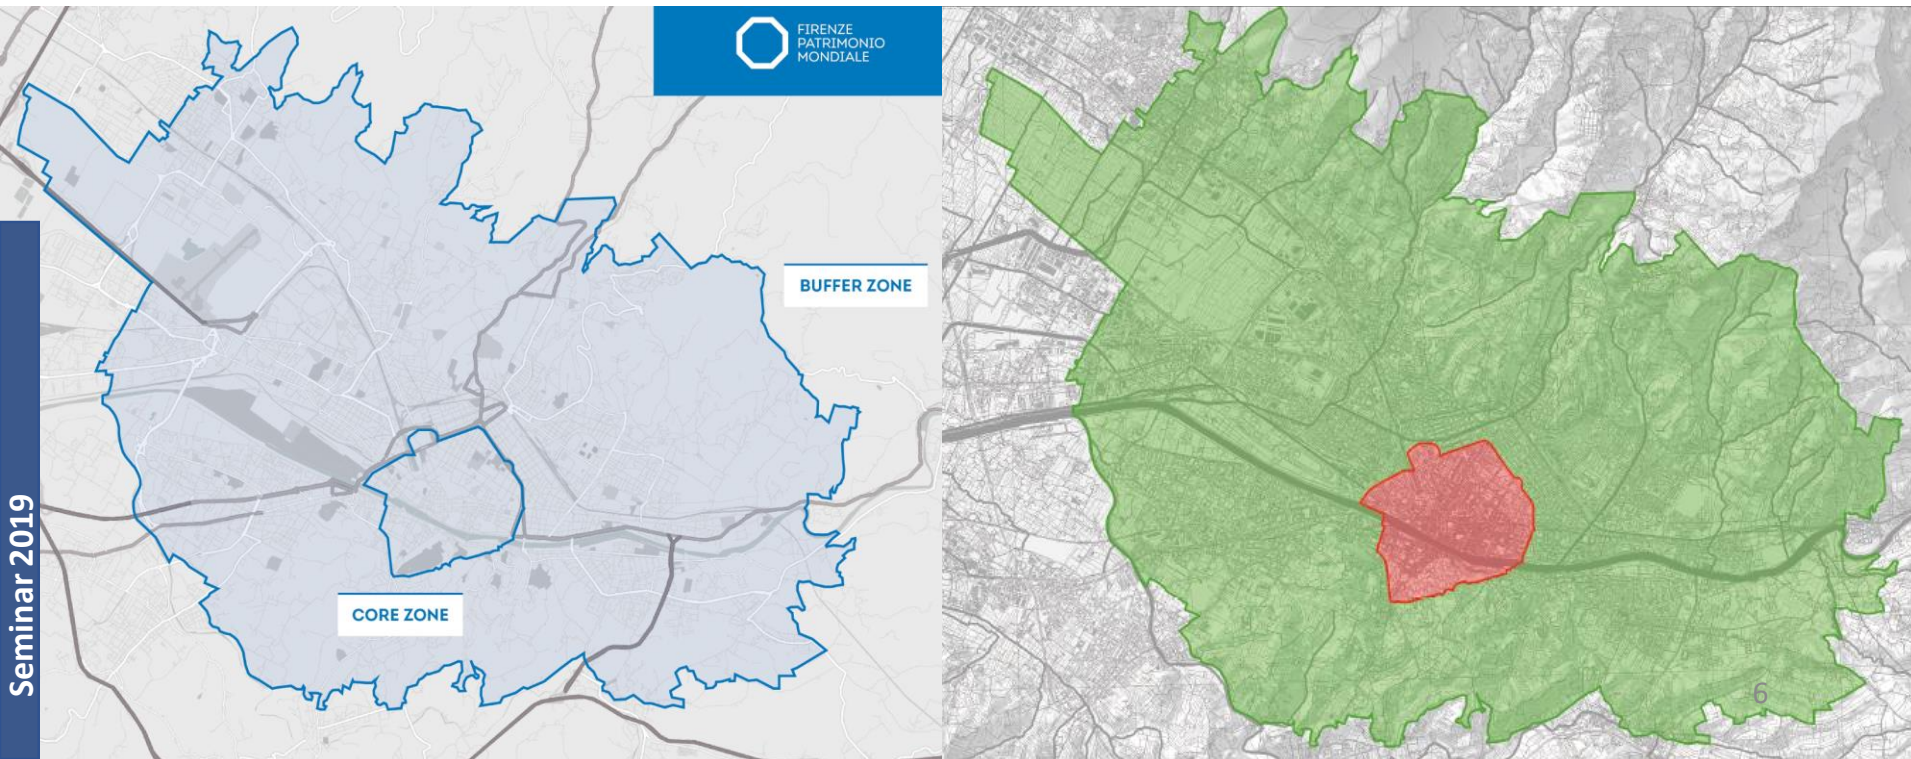

Villa dell'Ombrellino

1) PANORAMIC POINTS ON THE HILLSIDES AND BUFFER ZONE

GOALS

Adoption and inclusion of the Belvedere points by Municipalities in their own Structural Plans and Town Planning Regulations (Municipality of Florence, Sesto Fiorentino, Fiesole and Bagno a Ripoli)

To ensure that the transformation interventions that have an impact on the skyline are subjected to a control of the correct insertion

2) HeCo – HERITAGE COLOURS

Integrated system of open data of the architecture of the Historic Centre, based on the recognition of the chromatic language of the architecture which aims to develop guidelines and address applications for use in urban prevention and maintenance.

MISSION

SAFEGUARDING

TIMING

2015 - 2019

2) HeCo – HERITAGE COLOURS

GOALS

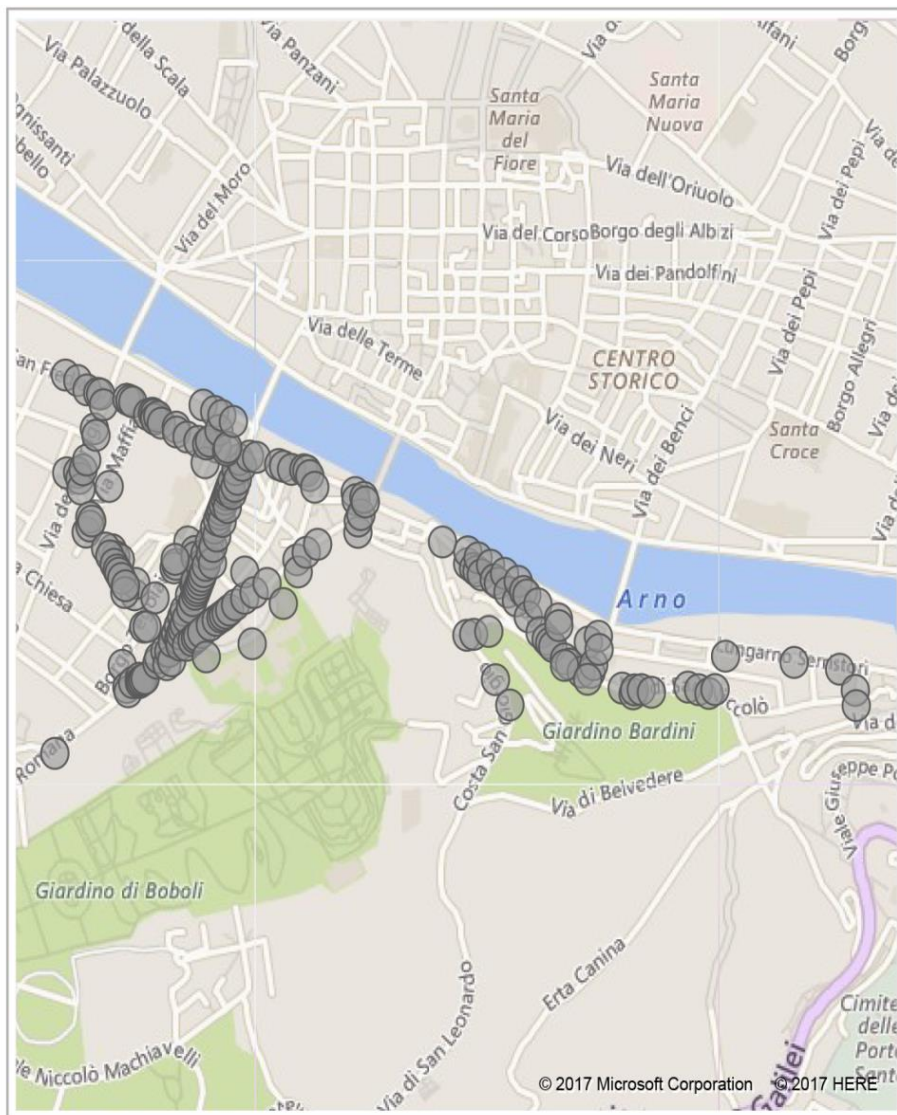

To catalogue the listed buildings of the Historic Centre on a geo-referenced GIS base

To monitor the state of conservation of buildings and historic gardens

To indicate the priorities, the criticalities and the methods for a programmed management

To coordinate the operations of maintenance of the monumental complexes

To raise awareness and knowledge of the cultural and historic value of Florence as a WH site

4) HISTORIC AND TRADITIONAL COMMERCIAL ACTIVITIES

GOALS

Development of a documentation programme for the historical businesses of the urban fabric of the city of Florence which, following accurate recognition, has identified the activities that are still operating, highlighting the salient characteristics and possible elements of particular prestige for each one

Identification of the 10 general protection criteria
Establishing of the new Regulation for the protection and enhancement of the historic and traditional Florentine activities

Economic activities are divided into Classes

- A1 historical prestigious: 50 activities
- A2 historical: 80 activities
- B traditional: 140 activities
- C street typical vendors/activities : 2 activities

5) DATABASE ON THE TRANSFORMATION AREAS AND BUILDINGS

REPORT

JOINT UNESCO WORLD HERITAGE CENTRE/ ICOMOS
ADVISORY MISSION TO THE WORLD HERITAGE SITE OF
THE HISTORIC CENTRE OF FLORENCE, ITALY

22-25 May 2017

We recommend that the state party, through the Municipality of Florence:

R1 Consider the consequences of improved high-speed rail and airport capacity in developing its tourist strategy, particularly the risk of increasing, both absolutely and in proportion, the number of short-stay visitors.

R2 Definitively abandon the concept of a tramway link under the city core, both because of the risks it would pose to the historic fabric and archaeology, and because a fast link direct to the centre would be incompatible with the emerging visitor strategy of spreading the load.

R3 As a general principle, not allow the creation of any more public car parks in the historic centre accessed other than directly from the *Viali di Circonvallazione*, on the grounds that such proposals are in conflict with the City's commendable sustainable movement strategy for the historic centre; and specifically to reject the proposal for the Piazza Brunelleschi.

R4 Specifically develop and maintain a register of buildings (regardless of ownership) that contribute to the OUV of the city, but are 'at risk' as a result of under-use and/or decay, as a basis for encouraging action by both public and private owners.

R5 At the next review of the management plan, identify more clearly how the Outstanding Universal Value is expressed through the physical and social fabric, defining the attributes of the site which carry its Outstanding Universal Value.

R6 Heritage Impact Assessment informed by the *Guidance on Heritage Impact Assessments for Cultural World Heritage Properties* (ICOMOS, 2011) be embedded as a process in managing the city. For infrastructure projects, it should begin when concepts are first suggested, with a correspondingly strategic assessment of their potential impacts (both direct and consequential) on cultural heritage, particularly OUV. HIA should then be developed and applied through options appraisal and all subsequent stages of project development.

5) DATABASE ON THE TRANSFORMATION AREAS AND BUILDINGS

Due to recommendation R4 from UNESCO WHC/ICOMOS Advisory Mission in 2017, the project develop and maintain a register of buildings that contribute to the OUV of the city, but are 'at risk' as a result of under-use and/or decay, as a basis for encouraging action by both public and private owners
